Bin Shamshad transport is dealing in sale of all types of heavy equipment transport used and new. We can handle the sale of Telly handle, Mobile Cranes, JCB3CX, Excavator, Shovels, Bobcat, Ruler, Grider, High up trucks and Dump trucks

High up Truck Services

High up Truck Services is very useful service for unloading the heavy weight with very little human interaction. We provide 3 ton to 20 ton High up truck service.

Recovery Services

We provide the transport recovery service to all of our prestigious clients. We handled all types of transport recoveries including the heavy transport like Excavator, Shovels, Bobcat, Ruler, Grider, High up trucks and Dump trucks.

On site repairing

On site repair workshop is a very unique service in that service we create the on site workshop so in case of any mishap our engineers fix the issue without taking the vehicle to the workshop that will save cost and time.

OUR FLEET

Telehandler

Bin Shamshad transport have multiple types of Telehandlers like (535, 537, 532, 540).

Mobile Cranes

In our fleet we have different mobile cranes that will support 20ton to 750ton. We can provide according to the project requirement.

JCB3CX

JCB3CX is a multitasking vehicle for the construction sites, its dig, shovel, scope and with rotating effect. One of the best vehicle for the construction sites.

Excavator

It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters.

Shovel

In our fleet we have different shovels that supports 950, 960. We can provide according to the project requirement.

Bobcat

The most capable loaders ever built for any jobsite, anywhere. It is a very useful on the construction sites.

Roller

In our fleet we have different road rollers that supports 3ton to 10ton. We can provide according to the project requirement.

Grader

A road grader, is a narrow multipurpose construction machine used to flatten a surface during grading projects. We can provide according to the project requirement.

High up trucks

In our fleet we have different highup trucks that supports 3ton to 20ton. We can provide according to the project requirement.

Dump truck

Dump truck is used for taking dumps (such as sand, gravel, or demolition waste) for construction. Dump truck is equipped with an open-box bed, which is hinged at the rear and equipped with hydraulic rams to lift the front, allowing the material in the bed to be deposited ("dumped") on the ground behind the truck at the site of delivery.

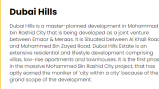

OUR PROJECTS

Expo 2020 Site

The main site of Expo 2020 Dubai will be a 438-hectare area (1062 acres) located between the cities of Dubai and Abu Dhabi, near Dubai's southern border with Abu Dhabi.

Expo 2020 Dubai will host the world for 6 months, with each day loaded with new experiences. It will be a time to create, collaborate and innovate. We're talking eye-catching, mind-bending, taste-bud tickling, grin-inducing, good-weird, mild that really just happen fun. Come along, or spend a lifetime telling less interesting stories.

Dubai Hills

Dubai Hills is a master-planned development in joint venture between Smaad & Meraas. It is situated between Al Khail Road and Mohammed Bin Zayed Road. Dubai Hills Estate is an extensive residential and lifestyle development comprising villas, low-rise apartments and townhouses. It is the first phase in the massive Mohammed Bin Rashid City project, that has aptly earned the moniker of 'city within a city' because of the grand scope of the development.

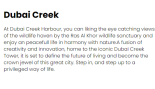

Dubai Creek

At Dubai Creek Harbour, you can link the eye-catching views of the wildlife haven by the 105 Al Khor wildlife sanctuary and enjoy an peaceful life in harmony with nature. A fusion of creativity and innovation, home to the iconic Dubai Creek Towers, it is set to define the future of living and become the crown jewel of this great city. Step in, and step up to a privileged way of life.

Expo 2020 link

Dubai's award in 2013 of the World Exposition 2020 (Expo 2020) which will be the region's first global showcase served as the catalyst for the Route 2020 project, a new route leading to an exciting journey into Dubai's future. This five-stage project will extend the existing Dubai Metro Red Line to the Expo 2020 site, a 438-hectare area dedicated to Expo 2020 events, which will connect participants, innovators, and policymakers from around the world. The Route 2020 project will be the first major rail expansion of the highly successful Dubai Metro Red Line and Green Line projects.

World Mall (Nad Al sheba)

Dubai launched world's first temperature-controlled entertainment and hotel district, Mall of the World. The project, which will occupy 48 million square feet (4.45 million square meters), will have the largest indoor theme park in the world, which will be covered by a glass dome. The shopping mall will cover an area of 8 million square feet (740,000 square meters), which will take the form of an extended retail street network, different to the typical shopping mall concept.

Muhaisnah 4 (Villa Community)

Villas gives you the feel of an independent house while still providing the benefits of housing societies. Typically, a villa community consists of a series of independent houses grouped together based on their amenities or size and a common area plus clubhouses and other facilities. Each owner would have ownership of the independent unit and the land that it is on.

Dubai Safari

Dubai Safari Park, home to more than 2500 animals from all over the world, aims to be one of the top ten zoos internationally, and a leading tourist destination worldwide attracting recognition from the international community for its work in maintaining a high standard of animal welfare, nutrition and ethical conduct.
